

Codebook

Codes about Call Categories and Topics

- **Telemarketing:** Calls to sell any physical or virtual goods or services, e.g., `accident_claim`, `auto_warranty`, `final_expense`, `house_improvement`, `medicare`.
- **Vishing_gov:** Calls to impersonate a government agency, e.g., `subsidy`, `tax_relief`.
- **Vishing_co:** Calls to impersonate a well-known company, e.g., `online_shopping`, `utility`.
- **Nuisance:** Calls that do not display any malicious intentions, e.g., `hello_calls`, `silent`.
- **Others:** Calls unrelated to telemarketing or vishing, e.g., `genuine_wrong_numbers`.

Codes about Hook Phase

- **Hook Phase Existence:** `yes` if the call clearly displays features of pre-screening and/or transferring; otherwise `no`.
- **Execution Entity:** The hook phase is carried out by `action_bot` (a call-to-action bot), `interaction_bot` (a call-to-interaction bot), or `human`.
- **Consent:** `yes` if the caller asks for consent to continue contact, or at least asks for interest; otherwise `no`.
- **Only_greeting_turns:** The number of caller turns that contain greetings only, without any additional information such as caller identification or purpose.
- **Caller_identification:** Information the caller provides or displays about their identity, including:
 - `name`
 - `organization`
 - `background_noise`: `noisy`, `human_noisy`, `silent`
 - `accent`: `non-American`, `American`
- **Qualification:** A summary of the qualification `question`.
- **Transfer:** Includes whether the transfer `intent` is displayed (`yes` or `no`), whether the transfer succeeds (`yes` or `no`), and the `failure_reason` if the transfer fails.

Codes about Caller Utterance

- **Requested_information:** All information callers request besides qualification questions, e.g., `address`, `city`, `zip_code`.
- **Persuasion:** Persuasion techniques used by the caller. Possible values are `AUTH`, `CRC`, `DIS`, `LSD`, and `SP`. Multiple values may be assigned to the same utterance.

- **Functional_states:** Functional role of the caller utterance, including **caller_identification**, **purpose**, **qualification**, and **transfer**.
